Lead City University of Ibadan
07/2018 - 2023   Ibadan, Nigeria

EXPERIENCE

Software Engineer

Sidebrief
2023 - Present   Lagos, Nigeria
www.sidebrief.com.

• Engaged in close collaboration with product managers and designers to conceptualize and craft wireframes, mockups, and prototypes tailored for new web applications, leading to a remarkable 40% reduction in development time.

• Implemented SEO best practices and optimized page metadata, leading to a 20% increase in organic search traffic and improved search engine rankings for key business registration and compliance-related keywords.

• Worked alongside cross-functional teams to meticulously pinpoint and rectify key performance bottlenecks, resulting in a notable 30% enhancement in page load times, thereby optimizing user experience and overall application performance.

• Spearheaded the development of robust, scalable, modular, and API-centric infrastructures, resulting in a substantial 30% decrease in customer complaints, thereby fortifying the reliability and resilience of the web applications.

• Provided valuable insights and recommendations on UI technologies and processes, ensuring the adaptability, versatility, and high-quality standards of our user interfaces, thus contributing to an enriched user experience.

React Native Developer

Mid-View Healthcare Ltd
2024 - Present
www.mid-viewhealthcare.co.uk

• Supervised the implementation of employee time shift and booking management.

• Administered the Client Page, allowing clients to create and modify bookings pending admin approval.
Facilitated client access to employee booking history for their respective jobs.

• Conducted extensive code restructuring to enhance professionalism and maintainability, rectifying issues left by the previous developer.

• Deployed the application for testing on Google Play and established a refined production build process for the Play Store.

React Native Engineer

KODE10X

Jan 2024 - Present   Lagos, Nigeria

- Collaborated with a team to develop a healthcare app in React Native, with distinct sections for Employee, Client, and Admin.

- Led the development of the Employee model, allowing employees to view job details and open jobs.

- Managed employee timesheet and bookings functionality.

- Implemented compliance and document upload for verifications, as well as an authentication page.

- Implemented a signature screen for supervisors to confirm job bookings after employees complete their tasks.

- Managed employee timeshift and bookings functionality.

- Oversaw the Client Page, enabling clients to create and edit bookings before approval by the admin.

- Enabled clients to access the booking history of employees related to their posted jobs.

- Undertook significant code restructuring to address professionalism issues left by the previous engineer, ensuring a more robust and maintainable codebase.

- Deployed the app to Google for testing and implemented a proper production build for the Play Store.

Backend Engineer

Cyberverdict

Nov 2023 - Jan 2023   Lagos, Nigeria

- Collaborated with a team of three engineers in refactoring and building a high-performance web application.

- Led development efforts for Cyberverdict, a collaborative platform for content creation.

- Enabled users to create diverse content, including articles and posts, akin to the Medium experience.

- Focused predominantly on backend integration, specializing in authentication, database management, and security enhancements.

React Native Engineer

Neru Lending

Oct 2023 - Nov 2023   USA

- Developed and maintained React Native mobile applications for Neru Lending's clients, increasing their revenue by an average of 15%.

- Worked closely with clients to understand their needs and requirements, and delivered high-quality, user-friendly applications on time and within budget.

- Implemented best practices in React Native development, including component-based architecture, state management, and performance optimization.

- Collaborated with a team of engineers to build and maintain Neru Lending's own infrastructure, including backend APIs, microservices, and databases.

- Contributed to the development and implementation of new features and enhancements for Neru Lending's mobile applications, resulting in a significant increase in user engagement and satisfaction.

Backend Engineer

Cyberverdict

Nov 2023 - Jan 2023   Lagos, Nigeria

- Collaborated with a team of three engineers in refactoring and building a high-performance web application.

- Focused predominantly on backend integration, specializing in authentication, database management, and security enhancements.
