AGWU EZEKIEL

Software Engineer

Ibadan, Nigeria   ✉ irechukwuezekiel@gmail.com   🌐 agwuezekiel.vercel.app

Summary

Hello, I'm Ezekiel, a MERN stack and cross-platform developer passionate about crafting robust web and mobile applications. Currently diving into WEB3, I'm fascinated by its potential in reshaping web development.

Experienced Frontend Engineer at Sidebrief and React Native Engineer at KODE10X, specializing in developing scalable and high-performance web and mobile applications.

Played a key role in boosting client revenue by 20% within one year as a MERN Stack Developer at Sidebrief (techstart '22').

Proficient in crafting enterprise-level MERN stack applications, leveraging Node.js, Express framework, and MongoDB for robust server-side development

Experience

Frontend Web Developer
Sidebrief (Techstars '22)

Mar 2023 - Present (1 year)
• Collaborated with product managers and designers to create wireframes, mockups, and prototypes for new web applications, resulting in a 40% decrease in development time.

• Collaborated with cross-functional teams to identify and address key performance bottlenecks, resulting in a 30% improvement in page load times.

• Developed robust, scalable, modular and API-centric infrastructures that decreased customer complaints by 30%. • Successfully recommended UI technologies and processes to ensure the versatility and quality of our user interfaces.

React Native Developer
kode10x

Jan 2024 - Present (2 months)
• Collaborated with a team to develop a healthcare app in React Native, featuring distinct sections for Employee, Client, and Admin.

• Led the development of the Employee model, enabling job viewing and applications. Implemented document upload for verifications
and an authentication page.

• Managed employee timesheet and bookings functionality.

• Undertook a significant code restructuring to address professionalism issues left by the previous engineer, ensuring a more robust and
maintainable codebase.

Software Engineer
Cyberverdict

Nov 2023 - Jan 2024 (3 months)

• Collaborated with a team of three engineers in refactoring and building a high-performance web application.

• Led development efforts for Cyberverdict, a collaborative platform for content creation.

• Enabled users to create diverse content, including articles and posts, akin to the Medium experience.

• Focused predominantly on backend integration, specializing in authentication, database management, and security enhancements.
React Native Consultant

Neru Lending

Oct 2023 - Nov 2023 (2 months)

As a React Native Consultant at Neru Lending, I contribute to the development of the company's mobile applications using React Native.

Contributing to the development of the company's software development life cycle (SDLC) processes and procedures.

Education

Lead City University

Bachelor's degree, Business Education

Jul 2018 - Dec 2023
